Report

## Manager's Lowdown

I received some comments about the recent AzCODI meeting that expressed dissatisfaction. Attendees felt like it was far more of a sales pitch than they had received in the past. They stated they would rather see information that helped them do their job better. I have queried the AzCODI membership and any believe that some training would be much better received than the sales pitch people believe was given at the last meeting.

I will be working with SirsiDynix to see if there are some other resources that can be provided at the next meeting that will be of greater benefit to their existing customers. If anyone has any idea what they would like to see please feel free to contact me with your thoughts.

The RFP is considerably closer to being completed. I am putting the finishing touches on the document before it is sent off to the attorney and finance for edits and comments. Everyone involved with the process should be very proud of the work they have done thus far on the RFP. The attorney has asked for three weeks to review it so the final draft should be off to the management committee sometime in early to mid December.

Chanel has been evaluating BlueCloud Analytics (BCA) since SirsiDynix has recently announced historical data can be exported from Symphony. As usual she is having to implement several workarounds to get the correct data to appear in BCA. She is also having to manipulate what data appears as well. Unfortunately no software works as we would hope. The real question is when the reporting package offered via BCA will be superior to that which is offered in Director's Station. Once the features from each product are truly competitive with one another we will look at switching products.

At the last Steering Committee meeting it was mentioned that double-sided discs were being improperly tagged. Some staff or volunteers have been placing the full-size disc tags (such as the x-range or stingray) on double-sided discs. Once the tag is placed on the double-sided disc the side with tag is rendered inoperable. Removing tag results irreparable damage to the disc. Please be aware of what kind of disc you have before placing a disc-style RFID tag on it. If you are faced with a double-sided disc please place a square tag on the case of the DVD.

The strategic plan has been fleshed out some more. If you would like to see the latest additions you can view them on the wiki at:

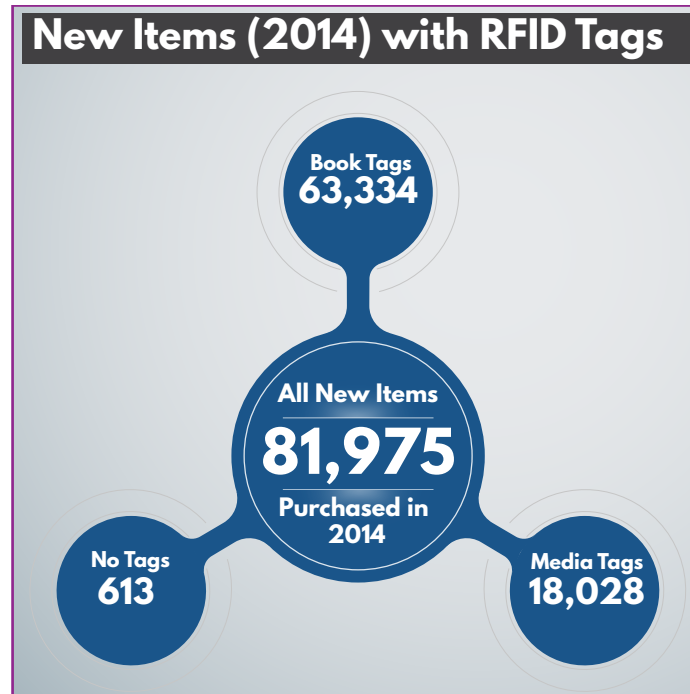

[http://wiki.yln.info/doku.php?id=2015\\_yln\\_strategic\\_plan](http://wiki.yln.info/doku.php?id=2015_yln_strategic_plan)

Respectfully Submitted,

Corey Christians  
Library Network Manager

# Monthly Infographic

# Prioritization

## Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

**Total requests submitted: 84**

**Total requests resolved: 84**

**Total unresolved requests opened this month: 3**

**Total requests still open: 28**

## Priority Two: Draft and RFP for a new Integrated Library System

The time is here to start looking into purchasing a new Integrated Library System (ILS). Stage one is sending out the RFP.

**Goal:** Create a request for proposal for a new integrated library system.

**Project Lead:** Corey Christians

### Progress:

- Install a wiki that can be used to gather information about what we want in a new ILS
- Test the wiki to make sure it works
- Send instructions out on how to use it
- Start having meetings to determine what we want in a new ILS
- Compile the results and add them to the wiki
- Form an RFP committee
- Survey the current ILS market
- Start work on the RFP
- Create a draft RFP
- Send the RFP out to the membership for comment
- Create the final draft
- Seek steering committee approval
- Distribute to all interested vendors

## Priority Three: Migrate vhosts from VMWare ESXi to Microsoft HyperV

Currently several servers are running virtually on a VMWare ESXi virtual host. Some of them include the YLN website, RPA, EZproxy, DNS, and many many more. The YLN will be switching to Microsoft HyperV in order to increase data redundancy and to increase support availability. The MIS Operations team also uses HyperV which will allow deep support with this product. This will require purchasing a new server, migrating current virtual servers and converting existing virtual hosts to HyperV.

- Determine if HyperV will work in our Linux/Windows environment
- Spec out a new server that can house all existing virtual servers as well as any future servers.
- Receive approval to purchase the new server
- Order new server
- Receive the new server
- Migrate existing ESXi virtual servers to HyperV
- Wipe ESXi servers and install HyperV
- Set up the new server to back up to the old servers

## Priority Four: Install BlueCloud Analytics

Currently the YLN uses Director's Station for all web-based statistical reporting. BlueCloud Analytics is meant to be a replacement for Director's Station. However, the products differ greatly. Because of this we have been holding off migrating to the new product until its functionality matches Director's Station.

**Goal:** Complete the transition to BlueCloud Analytics

**Project Lead:** Chanel Wheeler

### Progress:

- Upgrade our BlueCloud framework to accommodate analytics
- Install BlueCloud Analytics.
- Create several test reports to verify functionality
- Create templates to match DS reporting
- Train member libraries once transition to BCA

Note concerning prioritization: The priority of projects may shift as individual portions are completed.

# Prioritization

## Priority Five: YLN Strategic Plan

While the YLN has been very good about technology planning, the overall vision and strategy of the YLN has been more elusive. The Executive Committee has been working on developing a vision, mission, and strategic plan.

**Goal:** Develop a strategic plan that will bring the YLN to the year 2025.

**Project Lead:** Corey Christians

### Progress:

- Create a way to implement the plan
- Get approval for the updated plan
- Change the bylaws if necessary
- Distribute the new plan

## Priority Six: Gather State Data Report Statistics

The public libraries have to submit a report containing statistical information requested by the Arizona State Library and Archives. The YLN provides some of the statistical information for the report to the membership to make sure information is consistently reported.

**Goal:** Gather the appropriate statistics and create a report detailing the information necessary for the Arizona State Library's data report.

**Project Lead:** Corey Christians

### Progress:

- Read through the current SDR instructions
- Note which statistical measures have changed
- Verify the instructions match the web input form.
- Gather statistical information
- Update instructions for member libraries in the YLN SDR report.
- Input updated information
- Verify updated information is correct
- Send out final copy to the YLN membership
- Answer any resulting questions.

## Priority Seven: SirsiDynix Supported Servers End-of-Life

After a certain amount of time vendors will no longer support hardware because it is considered outmoded. In other words parts become hard to find because they are no longer manufactured. Our servers will have this problem as of May 31st, 2016.

**Goal:** Have a solution in place to deal with outmoded hardware.

**Project Lead:** Corey Christians

### Progress:

- Determine differing solutions to the problem considering we may be on a new ILS in two years.
- Present the solutions to the Executive Committee
- Present the solutions to the Steering Committee
- Analyze which option is superior based on cost and stability
- Purchase any equipment that is required
- Migrate data and go into production

## Priority Eight: SirsiDynix Maintenance Bill

One of the annual events I have to complete is to make sure our SirsiDynix maintenance bill is accurate and to assist in getting it paid.

**Goal:** Make sure the SirsiDynix annual maintenance bill accurate and that it gets paid.

**Project Lead:** Corey Christians

### Progress:

- Receive a list of all items under maintenance from SirsiDynix
- Verify the items there are appropriate
- Verify the amounts being charged have not exceeded the amount agreed to in the contract
- Receive an updated list from SirsiDynix with all of my changes incorporated into it
- Verify my changes have been incorporated
- Have an invoice sent to YCFLD
- YCFLD Board approves payment

# Prioritization

## Priority Nine: Implement Blue Cloud Cataloging

Blue Cloud Cataloging will allow library staff to access Symphony cataloging from a web browser. The new product should have significant user interface improvements above the cataloging section in Work Flows.

**Goal:** Fully implement Blue Cloud Cataloging (BCC)

**Project Lead:** Chanel Wheeler

- Upgrade Web Services so we can use BCC
- Configure Web Services for the new service
- Test BCC to see how it works
- Create documentation
- Activate it for a test library to see how it works in a production environment
- Conduct a training session for all YLN users
- Activate it for the remaining libraries

## Completed Projects CY15

- Value of Services for YLN
- Add MUHS
- Complete overall strategic plan
- Upgrade CircIT NXT
- Create OPAC Enhancements
  - Make it so the UPC retrieves cover art
  - Make it so ICat1 displays item format
  - Make it so second UPC shows cover art
  - Make it so the book river shows cover art
  - Determine if online registration is feasible
  - Fix reserve item searching for YCV
  - Add icons for ICat1s that don't have them
  - Add (item) details button to search results
  - Add the ability to add local cover art
  - Always have location listings expand
- Move Servers to County Admin Building
- Complete the LSTA Synrg 2 grant process
- Upgrade RPA

## Cancelled/Postponed Projects CY15

- Install the Bookmyne Mobile App
