

September 2015

Puppet Time at Yarnell Public Library

Yavapai Library Network

Monthly Report

Manager's Lowdown

The Request for Proposal process is proceeding along. The initial draft of the requirements is completed. Currently the RFP Committee is going through every single requirement to make sure it is worded properly, that a requirement was not repeated, and that no requirements were left out. The first of these meetings recently concluded and the remaining two will be completed in the middle of October. Once the requirements work is complete then the rest of the instructions for completing the proposal will continue.

The AzCODI meeting is coming up quickly. The meeting is slated for October 23 at the Capitol Building in Phoenix. Registration and refreshments begin at 9:30. If you were not emailed a copy of the agenda please let Chanel or myself know and we will make sure it is emailed to you.

SirsiDynix claims to have completed their work on giving access to historical data in BlueCloud Analytics. The lack of this functionality was one of the final roadblocks to implementing it. We will take a look at how it works at the AzCODI meeting to make sure it's functionality is on par with Director's Station. If it is then we will come up with a time to implement BlueCloud Analytics and have it replace Director's Station. Seeing BlueCloud Analytics in action is just one of many reasons to make sure you attend the upcoming AzCODI meeting.

Telemesssage had a gap in service in September. A Windows update automatically occurred on the server which impeded operations. Once the problem was discovered the system was brought back online and services were restored. The automatic application of Windows updates have been disabled on the server. Jim Lowman also implemented a system whereby statistics are automatically emailed to YLN staff. The statistics are examined daily to ensure the server remains online.

Jim and I will be adding a Power Distribution Unit (PDU) at the data center for our servers. This new PDU will allow for more Power Supply Units (PSUs) to be plugged in. Currently we have run out of capacity for this and several redundant PSUs are unable to be plugged in. In order to accomodate the new PSUs we will have to remove the existing PDUs which have a much lower capacity. While this transition takes place we will be disrupting all YLN services for a brief period of time which will not exceed 30 minutes (unless something goes wrong). This downtime will occur during the early morning before most libraries are open. We will also send out more information once a date is confirmed for when this transition will happen.

Lastly, we would like to congratulate Scott Bruner for being awarded the AzLA's Library Leadership Service Award. The Chino Valley Public Library along with the Yavapai Library Network is privileged to have the benefit of his leadership. Please take the opportunity to congratulate him if you see him.

Respectfully Submitted,

Corey Christians
Library Network Manager

Monthly Infographic

Prioritization

Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 82

Total requests resolved: 121

Total unresolved requests opened this month: 0

Total requests still open: 44

Priority Two: Draft and RFP for a new Integrated Library System

The time is here to start looking into purchasing a new Integrated Library System (ILS). Stage one is sending out the RFP.

Goal: Create a request for proposal for a new integrated library system.

Project Lead: Corey Christians

Progress:

- Install a wiki that can be used to gather information about what we want in a new ILS
- Test the wiki to make sure it works
- Send instructions out on how to use it
- Start having meetings to determine what we want in a new ILS
- Compile the results and add them to the wiki
- Form an RFP committee
- Survey the current ILS market
- Start work on the RFP
- Create a draft RFP
- Send the RFP out to the membership for comment
- Create the final draft
- Seek steering committee approval
- Distribute to all interested vendors

Priority Three: Migrate vhosts from VMWare ESXi to Microsoft HyperV

Currently several servers are running virtually on a VMWare ESXi virtual host. Some of them include the YLN website, RPA, EZproxy, DNS, and many many more. The YLN will be switching to Microsoft HyperV in order to increase data redundancy and to increase support availability. The MIS Operations team also uses HyperV which will allow deep support with this product. This will require purchasing a new server, migrating current virtual servers and converting existing virtual hosts to HyperV.

- Determine if HyperV will work in our Linux/Windows environment
- Spec out a new server that can house all existing virtual servers as well as any future servers.
- Receive approval to purchase the new server
- Order new server
- Receive the new server
- Migrate existing ESXi virtual servers to HyperV
- Wipe ESXi servers and install HyperV
- Set up the new server to back up to the old servers

Priority Four: Complete the LSTA SYNRG 2 Grant Process

The YLN in conjunction with the YCFLD received a grant to add the Mingus Union High School as a member of the Yavapai Library Network including converting their collection to Symphony, adding RFID capabilities, entering student information into Symphony and more. The conversion process was completed several months ago and final report needs to be submitted to complete the grant process.

Goal: Complete the SYNRG 2 LSTA Grant

Project Lead: Corey Christians

Progress:

- Compile statistics required for the grant
- Complete the final narrative
- Verify all funds have been expended
- Send final certification to the State Library

Note concerning prioritization: The priority of projects may shift as individual portions are completed.

Prioritization

Priority Five: YLN Strategic Plan

While the YLN has been very good about technology planning, the overall vision and strategy of the YLN has been more elusive. The Executive Committee has been working on developing a vision, mission, and strategic plan.

Goal: Develop a strategic plan that will bring the YLN to the year 2025.

Project Lead: Corey Christians

Progress:

- Create a way to implement the plan
- Get approval for the updated plan
- Change the bylaws if necessary
- Distribute the new plan

Priority Six: Gather State Data Report Statistics

The public libraries have to submit a report containing statistical information requested by the Arizona State Library and Archives. The YLN provides some of the statistical information for the report to the membership to make sure information is consistently reported.

Goal: Gather the appropriate statistics and create a report detailing the information necessary for the Arizona State Library's data report.

Project Lead: Corey Christians

Progress:

- Read through the current SDR instructions
- Note which statistical measures have changed
- Verify the instructions match the web input form.
- Gather statistical information
- Update instructions for member libraries in the YLN SDR report.
- Input updated information
- Verify updated information is correct
- Send out final copy to the YLN membership
- Answer any resulting questions.

Priority Seven: SirsiDynix Supported Servers End-of-Life

After a certain amount of time vendors will no longer support hardware because it is considered outmoded. In other words parts become hard to find because they are no longer manufactured. Our servers will have this problem as of May 31st, 2016.

Goal: Have a solution in place to deal with outmoded hardware.

Project Lead: Corey Christians

Progress:

- Determine differing solutions to the problem considering we may be on a new ILS in two years.
- Present the solutions to the Executive Committee
- Present the solutions to the Steering Committee
- Analyze which option is superior based on cost and stability
- Purchase any equipment that is required
- Migrate data and go into production

Priority Eight: SirsiDynix Maintenance Bill

One of the annual events I have to complete is to make sure our SirsiDynix maintenance bill is accurate and to assist in getting it paid.

Goal: Make sure the SirsiDynix annual maintenance bill accurate and that it gets paid.

Project Lead: Corey Christians

Progress:

- Receive a list of all items under maintenance from SirsiDynix
- Verify the items there are appropriate
- Verify the amounts being charged have not exceeded the amount agreed to in the contract
- Receive an updated list from SirsiDynix with all of my changes incorporated into it
- Verify my changes have been incorporated
- Have an invoice sent to YCFLD
- YCFLD Board approves payment

Prioritization

Priority Nine: Implement Blue Cloud Cataloging

Blue Cloud Cataloging will allow library staff to access Symphony cataloging from a web browser. The new product should have significant user interface improvements above the cataloging section in Work Flows.

Goal: Fully implement Blue Cloud Cataloging (BCC)

Project Lead: Chanel Wheeler

- Upgrade Web Services so we can use BCC
- Configure Web Services for the new service
- Test BCC to see how it works
- Create documentation
- Activate it for a test library to see how it works in a production environment
- Conduct a training session for all YLN users
- Activate it for the remaining libraries

Priority Ten: Upgrade RPA

RPA is using an old version of Windows which will be no longer supported very soon. The current version of RPA is not supported to work on a newer version of Windows. Our RPA has also not received an update from SirsiDynix since we migrated to Symphony five years ago. SirsiDynix has committed to updating the product.

Goal: Get the new version of RPA working

Project Leads: Jim Lowman

- Obtain a new Windows server license
- Install a new virtual server for RPA
- Sign the NDA with SD so we can install RPA
- Have SD install the new version of RPA
- Test RPA to make sure it still works
- Add all the existing authentication resources
- Go Live with the new RPA
- Update any web links if necessary

Completed Projects CY15

- Value of Services for YLN
- Add MUHS
- Complete overall strategic plan
- Upgrade CircIT NXT
- Create OPAC Enhancements
 - Make it so the UPC retrieves cover art
 - Make it so ICat1 displays item format
 - Make it so second UPC shows cover art
 - Make it so the book river shows cover art
 - Determine if online registration is feasible
 - Fix reserve item searching for YCV
 - Add icons for ICat1s that don't have them
 - Add (item) details button to search results
 - Add the ability to add local cover art
 - Always have location listings expand
- Move Servers to County Admin Building

Cancelled/Postponed Projects CY15

- Install the Bookmyne Mobile App
