February 2025

ADMINISTRATOR'S NOTE

Radio Frequency Identification (RFID) Update

I am pleased to announce that the RFID Request for Proposal (RFP), released on February 11th, successfully closed on March 6th. The RFID RFP Team is now shifting its focus to evaluating the six proposals that were submitted. Over the next few weeks, the Team will carefully review each bid, preparing for the next phase.

Around the week of March 31st, we plan to host vendor demonstrations, similar to the ILS RFP process nearly two years ago. These demos will be open to all interested attendees, who will be required to sign a Technical Advisor Non-Disclosure Agreement (NDA) due to the sealed bidding nature of the process. I will send out announcements when those are scheduled.

It has been several years since our last RFID RFP, and I am eager to discover the innovative products and technologies that have emerged in the market since then!

Aspen Update

February proved to be a challenging month for catalog searches. If you follow the monthly OPAC statistics (page 15 of this report), you'll notice that several libraries often experience sudden spikes in OPAC usage. These spikes typically normalize the following month, though a few other libraries might then show increased usage. This pattern is due to bots targeting our catalog server.

A bot is an automated software application that performs repetitive tasks over a network. It follows specific instructions to imitate human behavior but is faster and more accurate. A bot can also run independently without human intervention. For example, bots can interact with websites, chat with site visitors, or scan through content. While most bots are useful, outside parties design some bots with malicious intent. Organizations secure their systems from malicious bots and use helpful bots for increased operational efficiency.

-Read more about bots (especially malicious ones) here: <https://aws.amazon.com/what-is/bot/>

ByWater reported a surge of particularly aggressive bots attacking their servers. They explored various solutions, ultimately routing traffic through Cloudflare. This implementation required several DNS changes and extensive testing, taking a few days to fully integrate. During this period, ByWater allocated additional processing power to us, which is a positive outcome. However, I believe we may need even more resources in the near future.

Thank you to everyone who reported the issue and for your patience as ByWater worked diligently to resolve it.

Karie Straube
YLN Administrator
YCFLD Assistant Director

News from Yavapai College

Carrie Meakins-Farnsworth was awarded the Curator of Open Discovery Award at the 2025 OERizona conference, for Open Education.

This award recognizes Carrie's dedication to supporting OER initiatives and enhancing resource discovery and the impact her efforts have had on advancing open education, student affordability, and equitable learning opportunities.

Carrie is YC's dedicated OER librarian. She serves faculty by locating OER for curriculum, serves on the college's OER committee, and is a copyright first responder.

Help Desk

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 110

Total requests resolved: 92

Total unresolved requests opened this month: 10

Total requests still open: 24
